TITLE : MOBILE WIRELESS TERMINAL

ABSTRACT : **PROBLEM TO BE SOLVED:** To provide a mobile wireless terminal that can optionally set an item that is displayed by an incoming notice, redialing and an incoming call history.

SOLUTION: A display item setting means 231 presets an item desired to be displayed corresponding to the telephone number of a caller in the case of an incoming call notice. Then a display item selection means 232 selects and displays a set item corresponding to each telephone number in the case of an incoming call notice.
